

# HALCYON

*Dive Systems*

Halcyon began as a group of divers who knew exactly what they wanted but couldn't find it in a dive store. Our passion for diving led us to designing wings and lights to satisfy ourselves. We soon discovered that we were not alone in our pursuit of equipment that could radically improve every diver's comfort; from the newest recreational diver to supporting divers doing the most aggressive technical dives ever completed.

# ECLIPSE BC SYSTEMS

## ECLIPSE

- 30 LB or 40 LB option (AL/SS)
- **Total Weight**  
AL 3.7 KG., SS 5.2 KG.
